- IV. **Finding:** In all building exit stairs, the exit stair treads and exit stair handrails do not contain photoluminescent material markings as specifically required per the latest GSA standards.

Recommendation: Provide new markings with better visual characteristics for enhanced building life safety for relatively minimal effort/cost and to be fully compliant with GSA's latest standards.

Code Reference: 2006 PBS-P100 Section 7.8 (Photoluminescent Materials)

- V. **Finding:** On the Mezzanine Level, the elevator machine room (EMR) adjacent to Stair 2 was observed to be missing heat detectors which are required to be located within 24 inches of every elevator shaft and EMR sprinkler head.

Recommendation: Add heat detectors and relocate smoke detector. Verify all other EMRs and elevator shafts have heat detectors and other fire protection devices and interface components located as required per ANSI/ASME A17.1, NFPA 72, and NFPA 13.

Code Reference: 2010 NFPA 72 Section 21.4.2

- VI. **Finding:** On all Floors (spot-checked typical), the fire doors installed in the exit access (entrance doors to stair) have a ¾-hour fire rating (indicated on the hinge edge of the door leaf). The exit stair is required to be separated from the rest of the floor by a 2-hour fire barrier shaft assembly. Doors within 2-hour fire barriers are required to provide a minimum 1½-hour fire rating.

Recommendation: Replace doors with new doors that provide the required rating. Verify that all doors in the building installed as the entrance to an exit stair provide the minimum required fire resistance. Further, verify that any doors installed in any fire barriers throughout the building (beyond just exit stair enclosures) provide the minimum required fire resistance.

Code Reference: 2009 IBC Table 715.5.

- VII. **Finding:** In emergency and standby power rooms and the fire pump room, there are no firefighter emergency telephones present.

Recommendation: Install additional firefighter emergency telephones in the locations indicated above, as is required.

Code Reference: 2009 IBC Section 907.2.13.2

- VIII. **Finding:** The audible speaker (and speaker-strobe) appliances throughout the building appear to be spaced at further distances than what is currently required for intelligibility and audibility requirements in all areas of the building. No testing was performed in order to ensure that NFPA 72 compliant audibility levels are being achieved and no record of audibility testing information is contained in the "World Bank H Building Life Safety Testing Reports" binder.

Recommendation: Verify audible and intelligibility coverage throughout the building is compliant with the latest NFPA 72 National Fire Alarm Code requirements and modify

system accordingly (e.g., Increase speaker wattage tap settings in areas with low audibility measurements of below 70 dBA, etc.). Additionally, it is unclear at this time whether GSA mandates the full intent of the latest edition of NFPA 72 to apply... as there have been significant changes from the previous code edition regarding mass notification system requirements (not present existing), as well as other less all-encompassing emergency communication components that were previously considered separate but are now required to be part of the fire alarm system per 2010 NFPA 72.

Code Reference: 2010 NFPA 72 Section 18.4

- IX. **Finding:** The current system programming and operations automatically actuates the fire floor voice evacuation message throughout the stairwells. This causes message "bleed over" onto other floors in the building that are not affected by the fire and may prompt unaffected building occupants to evacuate prematurely causing slower evacuation, or egress, of those in the immediate vicinity of the fire and slower fire department response, or ingress, due to overcrowding of the exit stairs. Also, due to the absence of fire alarm-speakers in the elevator cabs, occupants within the cabs during a fire may not know what is occurring outside of the cab causing undue stress and lack of preparation for what action to take when the doors open.

Recommendation: The automatic voice message should be broadcast through the fire alarm speakers on the specified floors, but not in exit stairs or elevator cabs. However, the capability to transmit voice messages to elevator cabs and exit stairs should be included, but be manual only. Each stairwell should have its own dedicated speaker zone and speaker zone activation switch and each elevator bank should have its own dedicated speaker zone and speaker zone activation switch. The recommendation provided consists of excerpts from the latest GSA standard requirements and should be adhered to for compliance. Additionally, it is unclear at this time whether GSA mandates the full intent of the latest edition of NFPA 72 to apply... as there have been significant changes from the previous code edition regarding mass notification system requirements (not present existing), as well as other less all-encompassing emergency communication components that were previously considered separate but are now required to be part of the fire alarm system per 2010 NFPA 72.

Code Reference: 2005 PBS-P100 Section 7.9 (Fire Alarm Messages for High Rise...)

- X. **Finding:** The Fire Command Center is lacking elements required by code for fire department use and per GSA requirements.

Recommendation: Items such as generator manual start and transfer features, a firefighter's smoke control panel complying with IBC Section 909.16 (provided but does not appear compliant), all cabling in conduit, etc... Refer to general features and the 15 specific items listed in Section indicated below, and verify compliance.

Code Reference: 2009 IBC Section 911

- XI. **Finding:** Latest "Fire Pump Report of Inspection" indicates the fire pump discharge pressure exceeds the 175 psi maximum pressure for which the sprinkler system components are manufactured and listed (180 psi discharge pressure at churn is indicated for 03/03/10 fire pump test... 11/10/09 test indicates 185 psi at churn...).

Recommendation: A Pressure Reducing Valve (PRV) may be installed on the discharge side of the fire pump, prior to the existing main control valve but as close to the pump discharge outlet as possible, and any upstream components remaining between the PRV and pump discharge should be replaced with components manufactured and

BUILDING NAME: World Bank Building "H"

CW  

listed for higher pressures. The PRV should be sized hydraulically, adjusted for the sprinkler system low elevation, to limit the maximum system pressure to 175 psi so that the components downstream of the fire pump are no longer degraded or damaged whenever the pump is running and are installed as required per their UL/FM Listing. Also, hydraulic calculations should be provided to not only verify that the least demanding areas won't be over pressurized, but to verify the sprinkler system demand pressure-flow graphical curve at the most remote (most demanding) area in the building will still be exceeded by the supply pressure-flow curve (including spare capacity) even with the fire pump curve leveling out at 175 psi maximum pressure after PRV installation.

Code Reference: 2010 NFPA 20 Section 4.16.2

XII. Finding: The Fire Pump Room is not directly accessible from the outside of the building.

Recommendation: The newly added Equipment Access section requirements of the latest edition of NFPA 20 states: Fire pump rooms not directly accessible from the outside shall be accessible through an enclosed passageway from an enclosed stairway or exterior exit. The enclosed passageway shall have a minimum 2-hour fire-resistance rating. In my professional opinion, this requirement is excessive for the existing fire pump room arrangement which is located in the parking garage level closest to grade with the existing fire pump room door opening onto the base of the automobile ramp about 50 feet from the automobile garage access door to the building exterior. Although not meeting the exact intent of the revised standard, my recommendation is to not make any change to the existing area layout for the following reasons: The close proximity to the large garage opening to the outside. The general lack of any significant combustibles in the parking garage driveway between the pump room and the garage door. Any modification provided to meet the intent of the standard, (i.e., Adding a 2-hour fire-resistance rated passageway added between the fire pump room and the building exterior or existing exit passageway/stair), would require excessive major structural modifications to the building and potentially to the complex existing parking structure existing in close proximity to the sloped driveway.

FIRE LIFE SAFETY RIDER

Lease No. GS-11B-XXXXX

Lessor agrees to implement, at its cost, the following recommendations prior to acceptance of any portion of the building by the Government, or in the case of a recommendation applicable only to a specific floor, acceptance of that floor:

- I. **Finding:** On the Second Floor, there is a dead end corridor which exceeds the maximum allowed 50 feet in length. It serves the area of room labeled "Reserve Res Off" and is approximately 70 feet in length.

Recommendation: It is recommended that the corridor be extended through the "Meeting Area Res" and "Wire Cist" by reducing the area of those spaces to make room for the extension separated by a new wall.

Code Reference: 2009 NFPA 101 Section 38.2.5.2.1.

- II. **Finding:** On the B2 Level in the P3 south parking area, and on the Penthouse Level in two separate mezzanine type elevated areas, the three elevator machine rooms (EMR) were observed to be lacking sprinkler coverage partially or completely. Sprinkler coverage is now explicitly required per the revisions to the 2000 IBC Section 903.3.1.1.1, as EMRs are not an acceptable exception per the latest code criteria. Also, the latest edition of GSA PBS-P100 requires each EMR be provided with a wet-pipe sprinkler system using standard response sprinklers and the system shall be provided with separate manual isolation valve and a separate water flow switch located outside the EMR.

Recommendation: Add sprinkler coverage as dictated in the latest GSA standards for future compliance and for consistency in the level of protection throughout the building. Verify all other EMRs and elevator shafts have fire protection equipment and devices and interface components located as required per ANSI/ASME A17.1, NFPA 72, and NFPA 13.

Code Reference: 2006 PBS-P100 Section 7.16 (Elevator Systems)

- III. **Finding:** On the First thru Fifth Floors, there are electric closets and telephone closets that open directly into Stair 3/4 (scissor stair). The door swings opposite the direction of egress and electrical/telephone closets are not considered normally occupied spaces per the code definition of occupiable area. NFPA 101 requires that all doors opening into an exit enclosure swing in the direction of egress and openings in exit enclosures shall not include door assemblies from normally unoccupied spaces.

Recommendation: The swing of the doors should either be reversed such that the door swings in the direction of egress and a small communicating corridor space should be created between the door opening into the exit enclosure and a new second door added at the other end of the new communicating corridor (i.e., small "vestibule" type space added between two sets of doors within the electrical or telephone room/closet. If the closet is too small in floor area to accommodate such an addition, the exit door from the closet should be relocated to another wall in order for the door to open into a separate adjacent area other than the exit (stair) enclosure.

Recommendation: Verify audible and intelligibility coverage throughout the building is compliant with the latest NFPA 72 National Fire Alarm Code requirements and modify

system accordingly (e.g., increase speaker wattage tap settings in areas with low audibility measurements of below 70 dBA, etc.). Additionally, it is unclear at this time whether GSA mandates the full intent of the latest edition of NFPA 72 to apply... as there have been significant changes from the previous code edition regarding mass notification system requirements (not present existing), as well as other less all-encompassing emergency communication components that were previously considered separate but are now required to be part of the fire alarm system per 2010 NFPA 72.

Code Reference: 2010 NFPA 72 Section 10.4

- IX. Finding: The current system programming and operations automatically activates the fire floor voice evacuation message throughout the stairwells. This causes message "bleed over" onto other floors in the building that are not affected by the fire and may prompt unaffected building occupants to evacuate prematurely causing slower evacuation, or egress, of those in the immediate vicinity of the fire and slower fire department response, or ingress, due to overcrowding of the exit stairs. Also, due to the absence of fire alarm speakers in the elevator cabs, occupants within the cabs during a fire may not know what is occurring outside of the cab causing undue stress and lack of preparation for what action to take when the doors open.

Recommendation: The automatic voice message should be broadcast through the fire alarm speakers on the specified floors, but not in exit stairs or elevator cabs. However, the capability to transmit voice messages to elevator cabs and exit stairs should be included, but be manual only. Each stairwell should have its own dedicated speaker zone and speaker zone activation switch and each elevator bank should have its own dedicated speaker zone and speaker zone activation switch. The recommendation provided consists of excerpts from the latest GSA standard requirements and should be adhered to for compliance. Additionally, it is unclear at this time whether GSA mandates the full intent of the latest edition of NFPA 72 to apply... as there have been significant changes from the previous code edition regarding mass notification system requirements (not present existing), as well as other less all-encompassing emergency communication components that were previously considered separate but are now required to be part of the fire alarm system per 2010 NFPA 72.

Code Reference: 2005 PBS-P100 Section 7.9 (Fire Alarm Messages for High Rise...)

- X. Finding: The Fire Command Center is lacking elements required by code for fire department use and per GSA requirements.

Recommendation: Items such as generator manual start and transfer features, a firefighter's smoke control panel complying with IBC Section 909.10 (provided but does not appear compliant), all cabling in conduit, etc.. Refer to general features and the 15 specific items listed in Section indicated below, and verify compliance.

Code Reference: 2009 IBC Section 911

- XI. Finding: Latest "Fire Pump Report of Inspection" indicates the fire pump discharge pressure exceeds the 175 psi maximum pressure for which the sprinkler system components are manufactured and listed (180 psi discharge pressure at churn is indicated for 03/03/10 fire pump test .. 11/10/09 test indicates 185 psi at churn...).

Recommendation: A Pressure Reducing Valve (PRV) may be installed on the discharge side of the fire pump, prior to the existing main control valve but as close to the pump discharge outlet as possible, and any upstream components remaining between the PRV and pump discharge should be replaced with components manufactured and

listed for higher pressures. The PRV should be sized hydraulically, adjusted for the sprinkler system low elevation, to limit the maximum system pressure to 175 psi so that the components downstream of the fire pump are no longer degraded or damaged whenever the pump is running and are installed as required per their UL/FM Listing. Also, hydraulic calculations should be provided to not only verify that the least demanding areas won't be over pressurized, but to verify the sprinkler system demand pressure-flow graphical curve at the most remote (most demanding) area in the building will still be exceeded by the supply pressure-flow curve (including spare capacity) even with the fire pump curve leveling out at 175 psi maximum pressure after PRV installation.

Code Reference: 2010 NFPA 20 Section 4.15.2

XII Finding: The Fire Pump Room is not directly accessible from the outside of the building.

Recommendation: The newly added Equipment Access section requirements of the latest edition of NFPA 20 states: Fire pump rooms not directly accessible from the outside shall be accessible through an enclosed passageway from an enclosed stairway or exterior exit. The enclosed passageway shall have a minimum 2-hour fire-resistance rating. In my professional opinion, this requirement is excessive for the existing fire pump room arrangement which is located in the parking garage level closest to grade with the existing fire pump room door opening onto the base of the automobile ramp about 50 feet from the automobile garage access door to the building exterior. Although not meeting the exact intent of the revised standard, my recommendation is to not make any change to the existing area layout for the following reasons: The close proximity to the large garage opening to the outside. The general lack of any significant combustibles in the parking garage driveway between the pump room and the garage door. Any modification provided to meet the intent of the standard, (i.e., Adding a 2-hour fire-resistance rated passageway added between the fire pump room and the building exterior or existing exit passageway/stair), would require excessive major structural modifications to the building and potentially to the complex existing parking structure existing in close proximity to the sloped driveway.

INITIALS: _____ & _____
LESSOR GOVERNMENT

2. 552.270-5 SUBLETTING AND ASSIGNMENT (SEP 1999)

The Government may sublet any part of the premises but shall not be relieved from any obligations under this lease by reason of any such subletting. The Government may at any time assign this lease, and be relieved from all obligations to Lessor under this lease excepting only unpaid rent and other liabilities, if any, that have accrued to the date of said assignment. Any assignment shall be subject to prior written consent of Lessor, which shall not be unreasonably withheld.

3. 552.270-11 SUCCESSORS BOUND (SEP 1999)

This lease shall bind, and inure to the benefit of, the parties and their respective heirs, executors, administrators, successors, and assigns.

4. 552.270-23 SUBORDINATION, NONDISTURBANCE AND ATTORNMENT (SEP 1999)

(a) Lessor warrants that it holds such title to or other interest in the premises and other property as is necessary to the Government's access to the premises and full use and enjoyment thereof in accordance with the provisions of this lease. Government agrees, in consideration of the warranties and conditions set forth in this clause, that this lease is subject and subordinate to any and all recorded mortgages, deeds of trust and other liens now or hereafter existing or imposed upon the premises, and to any renewal, modification or extension thereof. It is the intention of the parties that this provision shall be self-operative and that no further instrument shall be required to effect the present or subsequent subordination of this lease. Government agrees, however, within twenty (20) business days next following the Contracting Officer's receipt of a written demand, to execute such instruments as Lessor may reasonably request to evidence further the subordination of this lease to any existing or future mortgage, deed of trust or other security interest pertaining to the premises, and to any water, sewer or access easement necessary or desirable to serve the premises or adjoining property owned in whole or in part by Lessor if such easement does not interfere with the full enjoyment of any right granted the Government under this lease.

(b) No such subordination, to either existing or future mortgages, deeds of trust or other lien or security instrument shall operate to affect adversely any right of the Government under this lease so long as the Government is not in default under this lease. Lessor will include in any future mortgage, deed of trust or other security instrument to which this lease becomes subordinate, or in a separate nondisturbance agreement, a provision to the foregoing effect. Lessor warrants that the holders of all notes or other obligations secured by existing mortgages, deeds of trust or other security instruments have consented to the provisions of this clause, and agrees to provide true copies of all such consents to the Contracting Officer promptly upon demand.

(c) In the event of any sale of the premises or any portion thereof by foreclosure of the lien of any such mortgage, deed of trust or other security instrument, or the giving of a deed in lieu of foreclosure, the Government will be deemed to have attorned to any purchaser, purchasers, transferee or transferees of the premises or any portion thereof and its or their successors and assigns, and any such purchasers and transferees will be deemed to have assumed all obligations of the Lessor under this lease, so as to establish direct privity of estate and contract between Government and such purchasers or transferees, with the same force, effect and relative priority in time and right as if the lease had initially been entered into between such purchasers or transferees and the Government; provided, further, that the Contracting Officer and such purchasers or transferees shall, with reasonable promptness following any such sale or deed delivery in lieu of foreclosure, execute all such revisions to this lease, or other writings, as shall be necessary to document the foregoing relationship.

(d) None of the foregoing provisions may be deemed or construed to imply a waiver of the Government's rights as a sovereign.

5. 552.270-24 STATEMENT OF LEASE (SEP 1999)

(a) The Contracting Officer will, within thirty (30) days next following the Contracting Officer's receipt of a joint written request from Lessor and a prospective lender or purchaser of the building, execute and deliver to Lessor a letter stating that the same is issued subject to the conditions stated in this clause and, if such is the case, that (1) the lease is in full force and effect; (2) the date to which the rent and other charges have been paid in advance, if any; and (3) whether any notice of default has been issued.

INITIALS:

GOVERNMENT

(b) Letters issued pursuant to this clause are subject to the following conditions:

- (1) That they are based solely upon a reasonably diligent review of the Contracting Officer's lease file as of the date of issuance;
- (2) That the Government shall not be held liable because of any defect in or condition of the premises or building;
- (3) That the Contracting Officer does not warrant or represent that the premises or building comply with applicable Federal, State and local law; and
- (4) That the Lessor, and each prospective lender and purchaser are deemed to have constructive notice of such facts as would be ascertainable by reasonable prepurchase and precommitment inspection of the Premises and Building and by inquiry to appropriate Federal, State and local Government officials.

6. 552.270-25 SUBSTITUTION OF TENANT AGENCY (SEP 1999)

The Government may, at any time and from time to time, substitute any Government agency or agencies for the Government agency or agencies, if any, named in the lease.

7. 552.270-26 NO WAIVER (SEP1999)

No failure by either party to insist upon the strict performance of any provision of this lease or to exercise any right or remedy consequent upon a breach thereof, and no acceptance of full or partial rent or other performance by either party during the continuance of any such breach shall constitute a waiver of any such breach of such provision.

8. 552.270-27 INTEGRATED AGREEMENT (SEP 1999)

This Lease, upon execution, contains the entire agreement of the parties and no prior written or oral agreement, express or implied, shall be admissible to contradict the provisions of the Lease.

9. 552.270-28 MUTUALITY OF OBLIGATION (SEP 1999)

The obligations and covenants of the Lessor, and the Government's obligation to pay rent and other Government obligations and covenants, arising under or related to this Lease, are interdependent. The Government may, upon issuance of and delivery to Lessor of a final decision asserting a claim against Lessor, set off such claim, in whole or in part, as against any payment or payments then or thereafter due the Lessor under this lease. No setoff pursuant to this clause shall constitute a breach by the Government of this lease.

10. 552.270-17 DELIVERY AND CONDITION (SEP 1999)

- (a) Unless the Government elects to have the space occupied in increments, the space must be delivered ready for occupancy as a complete unit. The Government reserves the right to determine when the space is substantially complete.
- (b) If the premises do not in every respect comply with the provisions of this lease the Contracting Officer may, in accordance with the Failure in Performance clause of this lease, elect to reduce the rent payments.

11. 552.270-18 DEFAULT IN DELIVERY—TIME EXTENSIONS (SEP 1999) (VARIATION)

- (a) With respect to Lessor's obligation to deliver the premises substantially complete by the delivery date, time is of the essence. If the Lessor fails to work diligently to ensure its substantial completion by the delivery date or fails to substantially complete the work by such date, the Government may by notice to the Lessor terminate this lease. Such termination is effective when received by Lessor. The Lessor and the Lessor's sureties, if any, are jointly and severally liable for any damages to the Government resulting from such termination, as provided in this clause. The Government shall be entitled to the following damages:

- (1) The Government's aggregate rent and estimated real estate tax and operating cost adjustments for the firm term and all option terms of its replacement lease or leases,

INITIALS:

GOVERNMENT

In excess of the aggregate rent and estimated real estate tax and operating cost adjustments for the term. If the Government procures replacement premises for a term (including all option terms) in excess of this term, the Lessor is not liable for excess Government rent or adjustments during such excess lease term.

- (2) All administrative and other costs the Government incurs in procuring a replacement lease or leases.
- (3) Other, additional relief provided for in this lease, at law, or in equity.
- (b) Damages to which the Government is entitled to under this clause are due and payable thirty (30) days following the date Lessor receives notice from the Contracting Officer specifying such damages.
- (c) Delivery by Lessor of less than the minimum ANSI/BOMA Office Area square footage required by this lease shall in no event be construed as substantial completion, except as the Contracting Officer permits.
- (d) The Government shall not terminate this lease under this clause nor charge the Lessor with damages under this clause, if (1) the delay in substantially completing the work arises from excusable delays and (2) the Lessor within 10 days from the beginning of any such delay (unless extended in writing by the Contracting Officer) provides notice to the Contracting Officer of the causes of delay. The Contracting Officer shall ascertain the facts and the extent of delay. If the facts warrant, the Contracting Officer shall extend the delivery date, to the extent of such delay at no additional costs to the Government. A time extension is the sole remedy of the Lessor.

12. 552.270-19 PROGRESSIVE OCCUPANCY (SEP 1999)

The Government shall have the right to elect to occupy the space in partial increments prior to the substantial completion of the entire leased premises, and the Lessor agrees to schedule its work so as to deliver the space incrementally as elected by the Government. The Government shall pay rent commencing with the first business day following substantial completion of the entire leased premise unless the Government has elected to occupy the leased premises incrementally. In case of incremental occupancy, the Government shall pay rent pro rata upon the first business day following substantial completion of each incremental unit. Rental payments shall become due on the first workday of the month following the month in which an increment of space is substantially complete, except that should an increment of space be substantially completed after the fifteenth day of the month, the payment due date will be the first workday of the second month following the month in which it was substantially complete. The commencement date of the firm lease term will be a composite determined from all rent commencement dates.

13. 552.270-21 EFFECT OF ACCEPTANCE AND OCCUPANCY (SEP 1999)

Neither the Government's acceptance of the premises for occupancy, nor the Government's occupancy thereof, shall be construed as a waiver of any requirement of or right of the Government under this Lease, or as otherwise prejudicing the Government with respect to any such requirement or right.

14. 552.270-6 MAINTENANCE OF BUILDING AND PREMISES—RIGHT OF ENTRY (SEP 1999) (VARIATION)

Except in case of damage arising out of the willful act or negligence of a Government employee, Lessor shall maintain the premises, including the building, building systems, and all equipment, fixtures, and appurtenances furnished by the Lessor under this lease, in good repair and condition so that they are suitable in appearance and capable of supplying such heat, air conditioning, light, ventilation, safety systems, access and other things to the premises, without reasonably preventable or recurring disruption, as is required for the Government's access to, occupancy, possession, use and enjoyment of the premises as provided in this lease. For the purpose of so maintaining the premises, the Lessor may at reasonable times enter the premises with the approval of the authorized Government representative in charge.

15. 552.270-10 FAILURE IN PERFORMANCE (SEP 1999)

The covenant to pay rent and the covenant to provide any service, utility, maintenance, or repair required under this lease are interdependent. In the event of any failure by the Lessor to provide

INITIALS:

LESSOR

&

GOVERNMENT

any service, utility, maintenance, repair or replacement required under this lease the Government may, by contract or otherwise, perform the requirement and deduct from any payment or payments under this lease, then or thereafter due, the resulting cost to the Government, including all administrative costs. If the Government elects to perform any such requirement, the Government and each of its contractors shall be entitled to access to any and all areas of the building, access to which is necessary to perform any such requirement, and the Lessor shall afford and facilitate such access. Alternatively, the Government may deduct from any payment under this lease, then or thereafter due, an amount which reflects the reduced value of the contract requirement not performed. No deduction from rent pursuant to this clause shall constitute a default by the Government under this lease. These remedies are not exclusive and are in addition to any other remedies which may be available under this lease or at law.

16. 552.270-22 DEFAULT BY LESSOR DURING THE TERM (SEP 1999)

(a) Each of the following shall constitute a default by Lessor under this lease:

- (1) Failure to maintain, repair, operate or service the premises as and when specified in this lease, or failure to perform any other requirement of this lease as and when required provided any such failure shall remain uncured for a period of thirty (30) days next following Lessor's receipt of notice thereof from the Contracting Officer or an authorized representative.
- (2) Repeated and unexcused failure by Lessor to comply with one or more requirements of this lease shall constitute a default notwithstanding that one or all such failures shall have been timely cured pursuant to this clause.

(b) If a default occurs, the Government may, by notice to Lessor, terminate this lease for default and if so terminated, the Government shall be entitled to the damages specified in the Default in Delivery-Time Extensions clause.

17. 552.270-7 FIRE AND CASUALTY DAMAGE (SEP 1999)

If the entire premises are destroyed by fire or other casualty, this lease will immediately terminate. In case of partial destruction or damage, so as to render the premises untenable, as determined by the Government, the Government may terminate the lease by giving written notice to the Lessor within 15 calendar days of the fire or other casualty; if so terminated, no rent will accrue to the Lessor after such partial destruction or damage; and if not so terminated, the rent will be reduced proportionately by supplemental agreement hereto effective from the date of such partial destruction or damage. Nothing in this lease shall be construed as relieving Lessor from liability for damage to or destruction of property of the United States of America caused by the willful or negligent act or omission of Lessor.

18. 552.270-8 COMPLIANCE WITH APPLICABLE LAW (SEP 1999)

Lessor shall comply with all Federal, state and local laws applicable to the Lessor as owner or Lessor, or both, of the building or premises, including, without limitation, laws applicable to the construction, ownership, alteration or operation of both or either thereof, and will obtain all necessary permits, licenses and similar items at Lessor's expense. The Government will comply with all Federal, State and local laws applicable to and enforceable against it as a tenant under this lease; provided that nothing in this lease shall be construed as a waiver of any sovereign immunity of the Government. This lease shall be governed by Federal law.

19. 552.270-12 ALTERATIONS (SEP 1999)

The Government shall have the right during the existence of this lease to make alterations, attach fixtures, and erect structures or signs in or upon the premises hereby leased, which fixtures, additions or structures so placed in, on, upon, or attached to the said premises shall be and remain the property of the Government and may be removed or otherwise disposed of by the Government. If the lease contemplates that the Government is the sole occupant of the building, for purposes of this clause, the leased premises include the land on which the building is sited and the building itself. Otherwise, the Government shall have the right to tie into or make any physical connection with any structure located on the property as is reasonably necessary for appropriate utilization of the leased space.

INITIALS: R &

20. 552.270-29 ACCEPTANCE OF SPACE (SEP 1999) (VARIATION)

- (a) When the Lessor has completed all alterations, improvements, and repairs necessary to meet the requirements of the lease, the Lessor shall notify the Contracting Officer. The Contracting Officer or designated representative shall promptly inspect the space.
- (b) The Government will accept the space and the lease term will begin after determining that the space is substantially complete and contains the required ANSI/BOMA Office Area square footage as indicated in the paragraph of this solicitation entitled "Amount and Type of Space."

21. 552.270-9 INSPECTION—RIGHT OF ENTRY (SEP 1999)

- (a) At any time and from time to time after receipt of an offer (until the same has been duly withdrawn or rejected), after acceptance thereof and during the term, the agents, employees and contractors of the Government may, upon reasonable prior notice to Offeror or Lessor, enter upon the offered premises or the premises, and all other areas of the building access to which is necessary to accomplish the purposes of entry, to determine the potential or actual compliance by the Offeror or Lessor with the requirements of the solicitation or this lease, which purposes shall include, but not be limited to:
 - (1) inspecting, sampling and analyzing of suspected asbestos-containing materials and air monitoring for asbestos fibers;
 - (2) inspecting the heating, ventilation and air conditioning system, maintenance records, and mechanical rooms for the offered premises or the premises;
 - (3) inspecting for any leaks, spills, or other potentially hazardous conditions which may involve tenant exposure to hazardous or toxic substances; and
 - (4) inspecting for any current or past hazardous waste operations, to ensure that appropriate mitigative actions were taken to alleviate any environmentally unsound activities in accordance with Federal, State and local law.
- (b) Nothing in this clause shall be construed to create a Government duty to inspect for toxic materials or to impose a higher standard of care on the Government than on other lessees. The purpose of this clause is to promote the ease with which the Government may inspect the building. Nothing in this clause shall act to relieve the Lessor of any duty to inspect or liability which might arise as a result of Lessor's failure to inspect for or correct a hazardous condition.

22. 52.204-7 CENTRAL CONTRACTOR REGISTRATION (OCT 2003) (VARIATION)

- (a) Definitions. As used in this clause—

"Central Contractor Registration (CCR) database" means the primary Government repository for Contractor information required for the conduct of business with the Government.

"Data Universal Numbering System (DUNS) number" means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

"Data Universal Numbering System +4 (DUNS+4) number" means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts for the same parent concern.

"Offeror" means the owner of the property offered, not an individual or agent representing the owner.

"Registered in the CCR database" means that—

- (1) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the CCR database; and
 - (2) The Government has validated all mandatory data fields and has marked the record "Active."
- (b) (1) By submission of an offer, the Offeror acknowledges the requirement that a prospective awardee must be registered with D&B and in the CCR database prior to

INITIALS:

award, during performance, and through final payment of any contract resulting from this solicitation.

- (2) The Offeror shall enter in the appropriate block, on the GSA Form 3518, entitled Representations and Certifications, the legal entity's name and address, followed by the DUNS or DUNS +4 number that identifies the Offeror's name and address exactly as stated in the offer. The DUNS number will be used by the Contracting Officer to verify that the Offeror is registered in the CCR database.
- (c) If the Offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

- (A) The understated data were known by the Contractor to be understated before the "as of" date specified on its Certificate of Current Cost or Pricing Data; or
- (B) The Government proves that the facts demonstrate that the contract price would not have increased in the amount to be offset even if the

is not a claim under the Act. The submission may be converted to a claim under the Act, by complying with the submission and certification requirements of this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

- (d) (1) A claim by the Contractor shall be made in writing and, unless otherwise stated in this contract, submitted within 6 years after accrual of the claim to the Contracting Officer for a written decision. A claim by the Government against the Contractor shall be subject to a written decision by the Contracting Officer.
- (2) (i) The Contractor shall provide the certification specified in paragraph (d)(2)(iii) of this clause when submitting any claim exceeding \$100,000.
- (ii) The certification requirement does not apply to issues in controversy that have not been submitted as all or part of a claim.
- (iii) The certification shall state as follows: "I certify that the claim is made in good faith; that the supporting data are accurate and complete to the best of my knowledge and belief; that the amount requested accurately reflects the contract adjustment for which the Contractor believes the Government is liable; and that I am duly authorized to certify the claim on behalf of the Contractor."
- (3) The certification may be executed by any person duly authorized to bind the Contractor with respect to the claim.
- (e) For Contractor claims of \$100,000 or less, the Contracting Officer must, if requested in writing by the Contractor, render a decision within 60 days of the request. For Contractor-certified claims over \$100,000, the Contracting Officer must, within 60 days, decide the claim or notify the Contractor of the date by which the decision will be made.
- (f) The Contracting Officer's decision shall be final unless the Contractor appeals or files a suit as provided in the Act.
- (g) If the claim by the Contractor is submitted to the Contracting Officer or a claim by the Government is presented to the Contractor, the parties, by mutual consent, may agree to use alternative dispute resolution (ADR). If the Contractor refuses an offer for ADR, the Contractor shall inform the Contracting Officer, in writing, of the Contractor's specific reasons for rejecting the offer.
- (h) The Government shall pay interest on the amount found due and unpaid from (1) the date that the Contracting Officer receives the claim (certified, if required); or (2) the date that payment otherwise would be due, if that date is later, until the date of payment. With regard to claims having defective certifications, as defined in FAR 33.201, interest shall be paid from the date that the Contracting Officer initially receives the claim. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the Contracting Officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim.
- (i) The Contractor shall proceed diligently with performance of this contract, pending final resolution of any request for relief, claim, appeal, or action arising under the contract, and comply with any decision of the Contracting Officer.

- (d) Contractors acting in good faith may rely on written representations by their subcontractors regarding their status as a small business concern, a veteran-owned small business concern, a service-disabled veteran-owned small business concern, a HUBZone small business concern, a small disadvantaged business concern, or a women-owned small business concern.

47. **52.219-9 SMALL BUSINESS SUBCONTRACTING PLAN (JUL 2005)**

(Applicable to leases over \$500,000.)

- (a) This clause does not apply to small business concerns.

- (b) *Definitions.* As used in this clause—

"Commercial item" means a product or service that satisfies the definition of commercial item in section 2.101 of the Federal Acquisition Regulation.

"Commercial plan" means a subcontracting plan (including goals) that covers the Offeror's fiscal year and that applies to the entire production of commercial items sold by either the entire company or a portion thereof (e.g., division, plant, or product line).

"Individual contract plan" means a subcontracting plan that covers the entire contract period (including option periods), applies to a specific contract, and has goals that are based on the Offeror's planned subcontracting in support of the specific contract, except that indirect costs incurred for common or joint purposes may be allocated on a prorated basis to the contract.

"Master plan" means a subcontracting plan that contains all the required elements of an individual contract plan, except goals, and may be incorporated into individual contract plans, provided the master plan has been approved.

"Subcontract" means any agreement (other than one involving an employer-employee relationship) entered into by a Federal Government prime Contractor or subcontractor calling for supplies or services required for performance of the contract or subcontract.

- (c) The Offeror, upon request by the Contracting Officer, shall submit and negotiate a subcontracting plan, where applicable, that separately addresses subcontracting with small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business concerns, small disadvantaged business, and women-owned small business concerns. If the Offeror is submitting an individual contract plan, the plan must separately address subcontracting with small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns, with a separate part for the basic contract and separate parts for each option (if any). The plan shall be included in and made a part of the resultant contract. The subcontracting plan shall be negotiated within the time specified by the Contracting Officer. Failure to submit and negotiate the subcontracting plan shall make the Offeror ineligible for award of a contract.

- (d) The Offeror's subcontracting plan shall include the following:

- (1) Goals, expressed in terms of percentages of total planned subcontracting dollars, for the use of small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns as subcontractors. The Offeror shall include all subcontracts that contribute to contract performance, and may include a proportionate share of products and services that are normally allocated as indirect costs.

- (2) A statement of—

- (i) Total dollars planned to be subcontracted for an individual contract plan; or the Offeror's total projected sales, expressed in dollars, and the total value of projected subcontracts to support the sales for a commercial plan;
- (ii) Total dollars planned to be subcontracted to small business concerns;
- (iii) Total dollars planned to be subcontracted to veteran-owned small business concerns;
- (iv) Total dollars planned to be subcontracted to service-disabled veteran-owned

 - (1) Assist small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns by arranging solicitations, time for the preparation of bids, quantities, specifications, and delivery schedules so as to facilitate the participation by such concerns. Where the Contractor's lists of potential small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business subcontractors are excessively long, reasonable effort shall be made to give all such small business concerns an opportunity to compete over a period of time.

HUBZone small business, small disadvantaged business, and women-owned small business concerns in all "make-or-buy" decisions.

- (f) A master plan on a plant or division-wide basis that contains all the elements required by paragraph (d) of this clause, except goals, may be incorporated by reference as a part of the subcontracting plan required of the Offeror by this clause; provided—

 - (2) The Offeror ensures that the master plan is updated as necessary and provides copies of the approved master plan, including evidence of its approval, to the Contracting Officer; and
 - (3) Goals and any deviations from the master plan deemed necessary by the Contracting Officer to satisfy the requirements of this contract are set forth in the individual subcontracting plan.
- (g) A commercial plan is the preferred type of subcontracting plan for contractors furnishing commercial items. The commercial plan shall relate to the Offeror's planned subcontracting generally, for both commercial and Government business, rather than solely to the Government contract. Commercial plans are also preferred for subcontractors that provide commercial items under a prime contract, whether or not the prime contractor is supplying a commercial item.
- (h) Prior compliance of the Offeror with other such subcontracting plans under previous contracts will be considered by the Contracting Officer in determining the responsibility of the Offeror for award of the contract.
- (i) The failure of the Contractor or subcontractor to comply in good faith with—
- (1) The clause of this contract entitled "Utilization Of Small Business Concerns"; or
 - (2) An approved plan required by this clause, shall be a material breach of the contract.
- (j) The Contractor shall submit the following reports:
- (1) *Standard Form 294, Subcontracting Report for Individual Contracts.* This report shall be submitted to the Contracting Officer semiannually and at contract completion. The report covers subcontract award data related to this contract. This report is not required for commercial plans.

It must be submitted semi-annually for contracts with the Department of Defense and annually for contracts with civilian agencies. If the reporting activity is covered by a commercial plan, the reporting activity must report annually all subcontract awards under that plan. All reports submitted at the close of each fiscal year (both individual and commercial plans) shall include a breakout, in the Contractor's format, of subcontract awards, in whole dollars, to small disadvantaged business concerns by North American Industry Classification System (NAICS) Industry Subsector. For a commercial plan, the Contractor may obtain from each of its subcontractors a predominant NAICS Industry Subsector and report all awards to that subcontractor under its predominant NAICS Industry Subsector.

48. 52.219-16 LIQUIDATED DAMAGES—SUBCONTRACTING PLAN (JAN 1999)

(Applicable to leases over \$500,000.)

- (a) *Failure to make a good faith effort to comply with the subcontracting plan*, as used in this clause, means a willful or intentional failure to perform in accordance with the requirements of the subcontracting plan approved under the clause in this contract entitled "Small Business Subcontracting Plan," or willful or intentional action to frustrate the plan.
- (b) Performance shall be measured by applying the percentage goals to the total actual subcontracting dollars or, if a commercial plan is involved, to the pro rata share of actual subcontracting dollars attributable to Government contracts covered by the commercial plan. If, at contract completion or, in the case of a commercial plan, at the close of the fiscal year for which the plan is applicable, the Contractor has failed to meet its subcontracting goals and the Contracting Officer decides in accordance with paragraph (c) of this clause that the Contractor failed to make a good faith effort to comply with its subcontracting plan, established in accordance with the clause in this contract entitled "Small Business Subcontracting Plan," the Contractor shall pay the Government liquidated damages in an amount stated. The amount of probable damages attributable to the Contractor's failure to comply shall be an amount equal to the actual dollar amount by which the Contractor failed to achieve each subcontract goal.
- (c) Before the Contracting Officer makes a final decision that the Contractor has failed to make such good faith effort, the Contracting Officer shall give the Contractor written notice specifying the failure and permitting the Contractor to demonstrate what good faith efforts have been made and to discuss the matter. Failure to respond to the notice may be taken as an admission that no valid explanation exists. If, after consideration of all the pertinent data, the Contracting Officer finds that the Contractor failed to make a good faith effort to comply with the subcontracting plan, the Contracting Officer shall issue a final decision to that effect and require that the Contractor pay the Government liquidated damages as provided in paragraph (b) of this clause.
- (d) With respect to commercial plans, the Contracting Officer who approved the plan will perform the functions of the Contracting Officer under this clause on behalf of all agencies with contracts covered by the commercial plan.
- (e) The Contractor shall have the right of appeal, under the clause in this contract entitled, Disputes, from any final decision of the Contracting Officer.
- (f) Liquidated damages shall be in addition to any other remedies that the Government may have.
